Hey Tripesh,

Hope you're doing well!

Please find herewith attached the targeted stations in the cities along with the estimated timeline of the project. Let us know if any changes are required with the list, we might add/remove stations as and when required and shall keep you posted on the same.

Hey Tripesh,

This is in acknowledgment of your mail and noted on the points mentioned in the trail mail. We will be sharing a list of targeted stations shortly with you and will initiate the project with the mutually agreed upon locations.

Also, the automated POs are being mailed to an incorrect email address, the same was the case with the last PO (Monika's). Can you please have it corrected from the backend?

Hi Pragya

One follow-up, for Mumbai, the stated stations are a priority, but other popular ones can also be added based on footfall. Also, the pre-condition of inter-city trains does not apply for Mumbai as it has a significant local train network.

Regards

Tripesh
